Acreage under consideration is surrounded by an adequate buffer to protect from chemical/spray drift contamination:

YES / NO

No genetically modified or chemically treated seeds or transplants are used on this acreage:

YES  NO

see comments

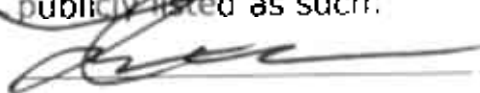

Grower(s) demonstrates a commitment to sustainable agricultural practices that seek to maintain and increase the long-term fertility of soils and protect and conserve water resources:

YES / NO

I certify that to the best of my abilities, observations, and based on my personal interview with the grower (s), I feel confident in recommending that the above listed grower(s) and farm

be included  not be included (please circle one)

in the Certified Naturally Grown™ program and publicly listed as such:

 9/27/2004  
Signature Date

## Comments

Page 2 of Inspector Declaration.

### Question 1.

No Prohibited Fertilizers used. Answered NO, meaning that NO Prohibited Fertilizers are used.

### Question 4

No genetically modified or chemically treated seeds or transplants are used on this acreage.

Answered NO, meaning that NO genetically modified or chemically treated seeds or transplants are used on this acreage.

This is a totally naturally grown farm using only certified organic seeds and fertilizers.
